

ADDO OFEI-AGYEKUM

Senior Data Specialist | AI/ML Data Operations | Python & SQL

+233 26 638 8835 | aofeiagyekum1@gmail.com | Spintex, Accra | linkedin.com/in/addoofei-agyekum-63337a1a3

CORE QUALIFICATIONS

- AI/ML dataset development
- Data quality assurance
- Data governance and compliance
- Python and SQL reporting
- Data validation and automated processing
- Troubleshooting and technical support
- Team leadership and communication

TECHNICAL SKILLS

Data & Security

- Data quality assurance
- Cybersecurity best practices
- Security protocols
- Compliance frameworks

Systems Administration

- Windows OS
- Server administration
- Networking and maintenance

Tools

- Microsoft 365 Suite
- Diagnostic tools
- Remote support applications

EDUCATION

BSc Information Technology

University of Ghana, Legon - 2014-2018, Second Class Honors

IBM Data Analyst Professional Certificate

2024 - Data analysis and visualization

CERTIFICATIONS

- Mobile Application Developer Mastery Award - 2016
- Security Analyst Certificate - 2016

PROFESSIONAL SUMMARY

Senior-positioned Data Specialist and IT Support Professional with experience in AI/ML dataset development, data quality assurance, Python, SQL, Microsoft 365, systems administration, and high-volume IT support operations. Strong record improving annotation accuracy, dataset reliability, verification controls, automation, governance, and operational support quality.

PROFESSIONAL EXPERIENCE

Data Specialist | AYA DATA

May 2022 - Present

- Led AI/ML dataset development with 98% annotation accuracy, ensuring structured, consistent datasets for model training and quality review.
- Managed data quality assurance and validation controls, improving dataset reliability by 30% through stronger QA checks and error tracking.
- Collaborated with cross-functional teams to optimize data collection, annotation workflows, and operational handover processes.
- Provided training, coaching, and mentorship to junior data specialists, strengthening productivity and quality ownership.
- Conducted data analysis and reporting using Python and SQL, supporting quality measurement and decision-making.
- Developed automated scripts to streamline data processing and reduce repetitive manual work.
- Implemented data governance policies ensuring regulatory compliance, documentation discipline, and controlled data handling.

Project Supervisor | ZUZU COMPANY

Oct 2020 - Nov 2021

- Supervised 10 field agents, achieving 95% data collection accuracy through clear field standards and operational follow-up.
- Reduced error rates by 40% by introducing stronger verification protocols, validation checkpoints, and review routines.
- Built real-time project tracking systems to improve visibility on field progress, collection status, agent output, and issue escalation.
- Trained field agents on data collection methods and protocols, improving documentation quality and consistency.
- Optimized resource allocation and monitored agent performance using data-led tracking and corrective action planning.

IT Service Support | ECOBANK GHANA

Sept 2018 - Aug 2019

- Delivered IT support to 200+ users with 97% satisfaction, resolving 50+ tickets daily and maintaining reliable technology operations.
- Diagnosed and resolved complex Windows and network issues; cut response times by 25% through structured troubleshooting.
- Handled server administration, preventive maintenance, and remote support implementation.
- Delivered Microsoft 365 training and enforced cybersecurity best practices, improving user adoption and secure ways of working.
